Risk Levels

Little to None

Minor

Moderate

Major

Extreme

Weather Key Points

Regional Operations Center

Western Region

Friday, December 2

- After a brief break in the weather Friday, a second round of rain and mountain snow will develop first across central California Friday night and Saturday morning before spreading into much of northern California Saturday afternoon. Widespread rain and snow will then persist through Sunday night, tapering to scattered showers on Monday.
 - **Snow Levels:** Hovering between 5,000 and 7,000 feet over much of the Sierra through the event, while ranging from 2,500 to 4,000 feet across far northern California
 - **Additional Snow:** 2 to 3 feet over much of the Sierra, highest above 6,000 feet, with localized higher amounts possible. Much lighter amounts over the far northern California mountains, generally 8 inches or less based on current forecast information
 - **Winds:** Strong winds may develop over the central and southern Sierra, particularly Sunday, bringing a risk for additional blowing/drifting snow, with widespread significant travel impacts likely to develop for much of the Sierra
 - **Additional Rain:** Rainfall amounts for the lower elevations look to average ½ to locally 2 inches, with localized amounts of 3 to 4 inches possible, especially across portions of Monterey, San Luis Obispo, and Santa Barbara Counties. At this time, no widespread impacts from rainfall are expected, though some local ponding of water could develop in urban areas.
- Colder temperatures will return to many areas of the state through the middle and latter portions of next week
- A few more rounds of mainly light rain or snow are possible next week, though at this time the timing and amounts of any precipitation remain highly uncertain

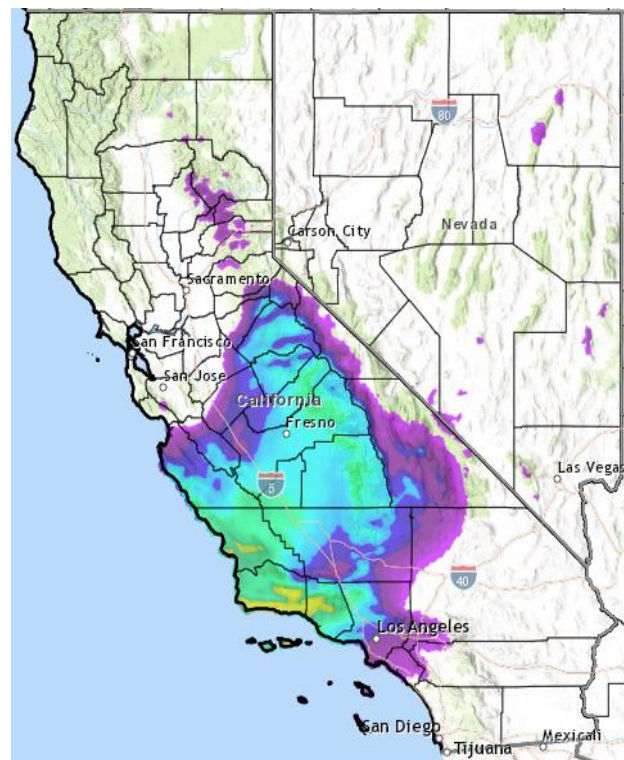

Daily Precipitation Forecast

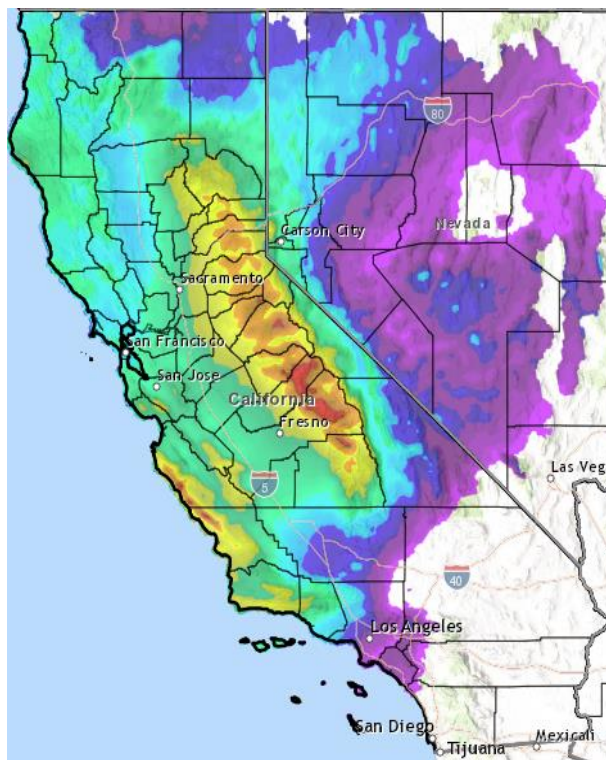

Regional Operations Center

Western Region

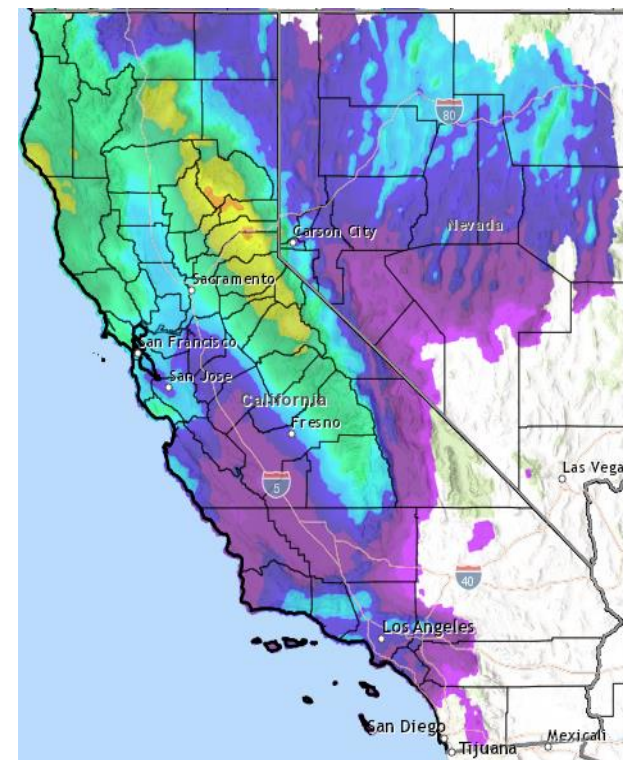

Friday, December 2

Friday

Saturday

Sunday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Friday, December 2

6-10 Day Outlook (December 7 - December 11)

Temperatures

- Below normal temperatures are favored across the state

Precipitation

- Below normal precipitation is favored across much of southern and central California, with near normal precipitation favored over the north

8-14 Day Outlook (December 9 - December 15)

Temperatures

- Below normal temperatures are again favored statewide

Precipitation

- Near normal precipitation is favored over all of California

Wildfire Forecast and Threat Intelligence Integration Center

STATEWIDE WILDFIRE RISK POTENTIAL

Fri Dec 02, 1200hrs

Sat Dec 03, 0000hrs

Sun Dec 04, 1500hrs

Acres

Each map shows the time with the highest wildfire risk potential. 8 hour simulations are run every three hours of the day to produce a map of wildfire risk potential in acres. The average number of acres in an area should not exceed the associated number in the legend. Risk forecast does not consider suppression efforts. Courtesy of Technosylva.

Wildfire Forecast and Threat Intelligence Integration Center

Weekly Fire Potential and Weather Forecast

Northern Region

- Fuel flammability has lessened considerably and will remain less flammable during the 7 day forecast period thus little to no large fire risk across the entire region.
- Snow cover will expand across the region and should be fairly expansive above 3000-3500 feet.
- Dead fuel moisture values will transition to near to below normal in the coming days due to rapidly rising readings. ERCs will lower noticeably and will be near to below normal in the coming days.
- Herbaceous grass and forbs are exhibiting a light flush of green-up, generally below 1500 to 2500 ft and the abundant soil moisture should jump start some additional growth across the lower elevations although the cooler temperatures will mute the jump start initially. The abundant standing dead from the previous growing season will remain until the combination of precipitation/wind and green-up can "melt" or alter the fuel bed.
- Live Woody Brush-Shrubs & Tree Canopies are likely in a mixed state of flammability. Dormancy has set in across the mid & upper elevations with little change expected. Some new growth, especially in Chamise, will re-initiate across the lower elevations thanks to the additional soil moisture but the cooler than normal temps have slowed that process thus continuing a fairly flammable regime based on the limited fuel samples taken during November.

Southern Region

- There will be little or no fire activity across the region through the forecast period.
- A Pacific trough will remain over the West Coast through the end of next week. The storm that moved inland over the Pacific Northwest yesterday is now over the Rockies. Another storm currently off the Pacific Northwest Coast will drop slowly south and eventually push inland over Southern California Wednesday. A third storm will move inland over Northern California Friday night.
- Light rain will fall over Southern California north of San Diego County into this evening and then move north into Central California and become heavier tonight through this weekend.
- Southern California will be mostly dry Saturday with light rain will spread back in Sunday afternoon and evening.
- From Ventura County northward, most foothill and mountain locations will receive an additional 2 to 5 inches of rainfall and most coast and valley locations will receive an additional half inch to 2 inches of rainfall through Sunday night.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 November Ebola Virus Event

The Medical and Health Coordination Center (MHCC) was activated on 11/09/22 at Level 3 (low) in response to 2022 Ebola Virus Event. The CDC released a Health Alert Network (HAN) health advisory regarding the Outbreak of Ebola Virus Disease (EVD) (Sudan ebolavirus) in Central Uganda. No suspected, probable, or confirmed EVD cases related to this outbreak have yet been reported in the United States.

- The MHCC will continue to be open at 0800 hours to 1700 hours Monday through Friday until further notice.

2022 Pediatric Surge

The California Department of Public Health (CDPH), Emergency Medical Services Authority (EMSA) and Department of Healthcare Services (DHCS) have activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to 2022 Pediatric Surge on 11/16/22 at 1500 hours.

- The MHCC will continue to be open 0800 hours to 1700 hours Monday through Friday until further notice.

2022 May Mpox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Mpox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Mpox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.
- On November 28, 2022, WHO began using the new preferred term Mpox to replace the term monkeypox. The CDC and CDPH will align with this change.
- CDPH is working to update the website to align with CDC/WHO new name for monkeypox to Mpox.

2022 Early December Winter Storm Event

- [Please see attached Situation Cell Incident Report for the Early December Winter Storm Event.](#)

Cal OES COASTAL REGION

- Nothing significant to report.

SITUATION SUMMARY (continued)

Cal OES SOUTHERN REGION

December Nights at Balboa Park, San Diego, San Diego County

- City of San Diego: “December Nights at Balboa Park”, December 2 & 3, over 350,000 people expected to attend across both days.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated at Level 1 in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 10/17/22, Governor Newsom unveiled the "[California Smarter Plan Updates October 2022](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions. Governor Newsom is set to lift the State of Emergency in early 2023, and this update provides information on California's progress to date and how we move forward.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 11/30/22 at 1630 hours:

- 10,651,573 total confirmed cases.
 - 40,498 Delta
- 96,803 total deaths.
 - 102 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

2022-LAW-83990: 11/28/22, 1215 hours: The Fresno County Sheriff's Office SAR Coordinator contacted LDO directly requesting 20 Type IV ground searchers for a missing 86 YOA male with Alzheimer's. MP walked away from his residence south of Fresno on 11/25/22 – Fresno S/O requesting support for their on-going search. Available resources will respond 11/29/22 to the ICP at 1701 W. Jensen Fresno for 0800 briefing: Merced S/O 1 deputy and 2 SAR volunteers, Madera S/O 2 deputies and 2 SAR volunteers, King S/O 4 horseback deputies, Tulare S/O 2 deputies and 2 SAR volunteers. Update 11/29/22 at 1000 hours: Fresno S/O requests the same SAR staffing as previously requested for Wednesday, 11/30/22 and Thursday 12/1/22 – LDO coordinating request. Update 11/29/22 @ 2000 hours: SAR mutual aid staffing for 11/30/22 @ 0800 hours - Kern S/O 3, Kings S/O 3, Madera S/O 2, Merced S/O 3, Tulare S/O 4. Mission On-Going. Update 11/30/22 @ 1701 hours: SAR mutual aid staffing for 12/1/22 @ 0800 hours - Kings S/O 2, Madera S/O 1, Merced S/O 4, Tulare S/O pending. Fresno Sheriff also requesting 4 canines, both cadaver and trailing if possible, for 12/2/22 only, CARDA has been notified. Fresno Sheriff requesting 40 ground personnel, as many mounted as able and as many OHV (motorcycles and quads) as possible for both Saturday 12/3/22 and Sunday 12/4/22. Regions V and II have been advised of this request. AC Jared McCormick will be the POC for this campaign search starting 12/1/22 at 0800 hours. LDO is aware.

Update 12/01/22 at 2000 hours: CARDA has provided (5) HRD's and (1) Trailing K9 for Friday at 0800 hours. Fresno's request for (40) ground searchers on Saturday and Sunday have been filled by San Mateo, Santa Clara, Marin, Madera & CalESAR. Efforts to secure more OHV's and Mounted are still underway. **Mission On-going**

Cal OES MISSION TASKINGS

Cal OES Missions

- Nothing significant to report.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
